Maybe even better than free.

It is also allowed to link to the download page from websites and communities. Using file, you can circumvent those limits without paying to upgrade yourteam chat service. Unfortunately, we can't make that part free. The cost of that data transfer is covered by your internet service or the data plan on your phone.Files can be downloaded from any computer from our high speed servers. Why pay storage fees for a file that you just wanted to send to a friend or colleague?Also, many team chat apps have limits to the size of files that can be transferred within their apps. filehosting provides an easy possibility for you to send largefiles to your friends. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between yourcomputer or phone and our servers, then from our servers to your friends device. Any file in any format can be uploaded and downloaded for free. This is easy,fast and reliable filehosting! You don't need any kind of premium-accounts. You decide who you want to share your files with. Keep your files private, or sendyour download links only to friends or family. Just upload the file you want to share with your friends and we send you a download link to your file. We haveno file size limit. Our service is completely free for everyone. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costingyou money in data storage fees. There are no restrictions on the number of times a file can be downloaded. Simply upload your file and share the link. File isfree to use with no gotchas and no hidden fees. No account or credit card is required to get started. So try our free and simple filehosting service now. You cangive this download link to your friends by mail or instant messenger. If only we could, we surely would! On the other hand, using file can actually save youmoney. Alternatively you can choose to share your download links on blogs, forums and social networking sites. You can upload any type of file (movies,music, documents, images, zip files and more). You don't need any special software installed to be able to download your files. When you use file, you avoidstoring the file you're sending in your cloud storage or mail server.
