Simply upload your file and share the link. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. File is free to use with no gotchas and no hidden fees. No account or credit card is required to get started. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. We have no file size limit. Files can be downloaded from any computer from our high speed servers. Just upload the file you want to share with your friends and we send you a download link to your file. You don't need any special software installed to be able to download your files. filehosting provides an easy possibility for you to send large files to your friends. There are no restrictions on the number of times a file can be downloaded. You decide who you want to share your files with. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. Unfortunately, we can't make that part free. Our service is completely free for everyone. Any file in any format can be uploaded and downloaded for free. If only we could, we surely would! On the other hand, using file can actually save you money. You can upload any type of file (movies, music, documents, images, zip files and more). Alternatively you can choose to share your download links on blogs, forums and social networking sites. Using file, you can circumvent those limits without paying to upgrade your team chatservice. The cost of that data transfer is covered by your internet service or the data plan on your phone. Files transferred the old-fashioned way tend to pile upand be forgotten about, eventually costing you money in data storage fees. So try our free and simple filehosting service now. Keep your files private, or sendyour download links only to friends or family. It is also allowed to link to the download page from websites and communities. You can give this dow
